

The
FARM CONSULTANCY
Group

Soil Fertility Services

How we can help you manage your soils and manures to **SAVE YOU MONEY:**

- We offer a full range of soil analysis and plant nutritional advice to provide a bespoke fertiliser plan for your crops, your fields and your soil types.
- We can help you make the very best use of the farm's slurry and manure. Turn that problem into an asset.
- Make the most of lower fertiliser prices by cost effectively targeting nutrients at deficient fields/soils.
- Do you have a nutrient management plan, which you use and update to benefit the environment, ensure you are compliant with regulations and benefit your pocket?
- Save money and still grow crops that will be the envy of your neighbours.

Contact Phil Cooper on 07798 673665, for advice on soil management.
