wessexlabourservices@hotmail.co.uk

Wessex Labour Services Ltd is registered with the GLA (Gangmasters Licensing Authority), HMRC and Companies House, to enable us to provide contract labour for dairy farmers in the South West.

We provide all contracts and associated administration including invoicing and paying the herdsman. We also carry out document checks to ensure that foreign workers are eligible to live and work in the UK.

The herdsman under the contract receives a flat fee per day plus a variable bonus based on milk quality or litres produced. They will also provide their own contractors liability insurance.

Benefits to the Farmer:

- Full compliance with self employment legislation.
- No administration on farm.
- Extremely cost effective.

Take the stress out of employment!

Contact **Phil Cooper** for further details.
